[Half-Lived Life](#) John Lee 2011-12-20 “So this is my life? What happened to the person I thought I might be at this stage of the game? Where did that person go? Why am I feeling like I’m just treading water, trying to stay one step ahead of my bills and obligations. Anyway, I’m just too tired at this point to try to figure out where that other person went. But I sure expected to be living a different life than this one.” Most people in their forties, fifties, and beyond catch themselves saying something similar to this. Everyone has a mental image of the person they want to be, but few of us actually fulfill these wishes. Once people realize they are living a completely different life than they’d envisioned, they often think it is too late to change and carry on with the same old habits. Too many people settle for a half-lived life. Best-selling author John Lee has long been

addressing the fallacy of this attitude in talks and workshops—and now he sets this program into book form. In [The Half-Lived Life](#), he introduces and explains how passivity holds us hostage to old ways of doing things—and provides solutions on escaping this paralyzing state of mind, body, and spirit while increasing our emotional intelligence (EQ). He also shows the freedom to be gained via compassionate assertiveness—an outgrowth of setting boundaries and enforcing limits. Just as Lee’s seminars have successfully led many to find their authentic self in the second half of their life, so too will this book.

The Catcher in the Rye Jerome David Salinger 1988

When Your Adult Child Breaks Your Heart Joel Young 2013-12-03 Behind nearly every adult who is accused of a crime, becomes addicted to drugs or alcohol, or who is severely mentally ill and acting out in public, there is usually at least one extremely stressed-out parent. This parent may initially react with the bad news of their adult child behaving badly with, "Oh no!" followed by, "How can I help to fix this?" A very common third reaction is the thought, "Where did I go wrong--was it something I said or did, or that I failed to do when my child was growing up that caused these issues? Is this really somehow all my fault?" These parents then open their homes, their pocketbooks, their hearts, and their futures to "saving" their adult child--who may go on to leave them financially and emotionally broken. Sometimes these families also raise the children their adult children leave behind: 1.6 million grandparents in the U.S. are in this situation. This helpful book presents families with quotations and scenarios from real suffering parents (who are not identified), practical advice, and tested strategies for coping. It also discusses the fact that parents of adult children may themselves need therapy and medications, especially antidepressants. The book is written in a clear, reassuring manner by Dr. Joel L. Young, medical director of the Rochester Center for Behavioral Medicine in Rochester Hills, Michigan; with noted medical writer Christine Adamec, author of many books in the field. In the wake of the Newtown shooting and the viral popularity of the post "I Am Adam Lanza's Mother," America is now taking a fresh look, not only at gun control, but also on how we treat mental illness. Another major issue is our support or stigmatization of those with adult children who are a major risk to their families as well to society itself. This book is part of that conversation.

Breaking the Argument Cycle Sharon Rivkin 2009-10-01 Revealing where the real conflict lies in a relationship—and resolving it * *Breaking the Argument Cycle* is a book for all those who've ever found themselves arguing with their significant other, again and again, about money, sex, or even a seemingly trivial topic—when, at its core, the conflict is about something completely different. A longtime marriage and family therapist, Sharon Rivkin has helped hundreds of couples fix their relationships by understanding why they fight. Here, she shows how anyone can use the

tools of therapy to break the cycle of destructive fighting—namely, by resolving the core issues of early arguments, which have their roots in childhood and get repeated over time. Presenting real-life stories and easy exercises, Rivkin sets forth a simple, three-step process—Peel, Reveal, Heal—to empower couples to identify and then resolve their core issues themselves, shedding light on what they're really arguing about. This is then followed up with healing exercises. By thus breaking the argument cycle, confusion and chaos turn into clarity and healing—and everyone can learn how and why they get hooked into an argument, how to unhook, and how to develop lasting tools to turn conflict into intimacy . . . even after years of fighting.

Irreversible Damage Abigail Shrier 2020-06-30 NAMED A BOOK OF THE YEAR BY THE ECONOMIST AND ONE OF THE BEST BOOKS OF 2021

BY THE TIMES AND THE SUNDAY TIMES "Irreversible Damage . . . has caused a storm. Abigail Shrier, a Wall Street Journal writer, does something simple yet devastating: she rigorously lays out the facts."

—Janice Turner, The Times of London Until just a few years ago, gender dysphoria—severe discomfort in one’s biological sex—was vanishingly rare. It was typically found in less than .01 percent of the population, emerged in early childhood, and afflicted males almost exclusively. But today whole groups of female friends in colleges, high schools, and even middle schools across the country are coming out as “transgender.” These are girls who had never experienced any discomfort in their biological sex until they heard a coming-out story from a speaker at a school assembly or discovered the internet community of trans “influencers.” Unsuspecting parents are awakening to find their daughters in thrall to hip trans YouTube stars and “gender-affirming” educators and therapists who push life-changing interventions on young girls—including medically unnecessary double mastectomies and puberty blockers that can cause permanent infertility. Abigail Shrier, a writer for the Wall Street Journal, has dug deep into the trans epidemic, talking to the girls, their agonized parents, and the counselors and doctors who enable gender transitions, as well as to “detransitioners”—young women who bitterly regret what they have done to themselves. Coming out as transgender immediately boosts these girls’ social status, Shrier finds, but once they take the first steps of transition, it is not easy to walk back. She offers urgently needed advice about how parents can protect their daughters. A generation of girls is at risk. Abigail Shrier’s essential book will help you understand what the trans craze is and how you can inoculate your child against it—or how to retrieve her from this dangerous path.

Who should we send to meet the alien, when the alien doesn't want to meet? Send a linguist with multiple-personality disorder and a biologist so spliced with machinery that he can't feel his own flesh. Send a pacifist warrior and a vampire recalled from the grave by the voodoo of paleogenetics. Send a man with half his mind gone since childhood. Weapons of Math Destruction Cathy O'Neil 2016 Longlisted for the National Book Award New York Times Bestseller A former Wall Street

quant sounds an alarm on the mathematical models that pervade modern life -- and threaten to rip apart our social fabric We live in the age of the algorithm. Increasingly, the decisions that affect our lives--where we go to school, whether we get a car loan, how much we pay for health insurance--are being made not by humans, but by mathematical models. In theory, this should lead to greater fairness: Everyone is judged according to the same rules, and bias is eliminated. But as Cathy O'Neil reveals in this urgent and necessary book, the opposite is true. The models being used today are opaque, unregulated, and uncontested, even when they're wrong. Most troubling, they reinforce discrimination: If a poor student can't get a loan because a lending model deems him too risky (by virtue of his zip code), he's then cut off from the kind of education that could pull him out of poverty, and a vicious spiral ensues. Models are propping up the lucky and punishing the downtrodden, creating a "toxic cocktail for democracy." Welcome to the dark side of Big Data. Tracing the arc of a person's life, O'Neil exposes the black box models that shape our future, both as individuals and as a society. These "weapons of math destruction" score teachers and students, sort r sum s, grant (or deny) loans, evaluate workers, target voters, set parole, and monitor our health. O'Neil calls on modelers to take more responsibility for their algorithms and on policy makers to regulate their use. But in the end, it's up to us to become more savvy about the models that govern our lives. This important book empowers us to ask the tough questions, uncover the truth, and demand change. -- Longlist for National Book Award (Non-Fiction) -- Goodreads, semi-finalist for the 2016 Goodreads Choice Awards (Science and Technology) -- Kirkus, Best Books of 2016 -- New York Times, 100 Notable Books of 2016 (Non-Fiction) -- The Guardian, Best Books of 2016 -- WBUR's "On Point," Best Books of 2016: Staff Picks -- Boston Globe, Best Books of 2016, Non-Fiction

Decisions, Decisions Randy Green 2010-09-01 At an impasse over relationships, jobs, or health matters? Choosing just got a whole lot easier. *Decisions, Decisions* is for anyone who's been stuck in an unfulfilling relationship they can't decide whether to leave; anyone plodding along in the same job for years without advancing their goals; anyone who feels like a prisoner of poor habits that perpetuate an unhealthy lifestyle--and anyone who just accepts whatever comes their way instead of proactively making smart decisions. This book helps these people learn how to shift the way they decide. With case studies and checklists throughout, *Decisions, Decisions* is organized into three parts that lead readers to understand their behavior and learn how to change it. Psychologist Randy W. Green, PhD, begins by illustrating how people become paralyzed by their own "rules," leading to indecision and poor decisions that can have

serious health consequences. He then explores how past traumas and stress reactions inhibit present choices, and the effects our own unique body language has on decision making. And he shows how to make better decisions by shifting our attention away from where we want it least and toward what is possible, leading to good decisions that are truly in our best interests.

The Fix Up Kendall Ryan 2016-10-11 From New York Times bestseller, Kendall Ryan, comes a sexy new standalone novel. My tempting and very alpha friend Sterling Quinn is someone I consider off-limits. It's not just that we're friends, he's also cocky, confident, and British, which means he's a walking aphrodisiac. But lately he's been giving me the look. You know the one. When he thinks I'm not paying attention, and his gaze lingers for too long. When we start working together, that's when the sexual tension between us gets so thick, I want to hack through it with a machete. I want to make all these deep feelings I've harbored for him

disappear, because there's no way this can end well. The lines between business and pleasure become irrevocably blurred, and I'm stuck between a rock and Sterling's very, very hard place. Rather than keep a level head about our growing attraction, Sterling wants to go all in, showing me just how explosive we can be together. But I've been around long enough to know that this British bad boy is more than my heart can handle. I'm not about to be cast aside like yesterday's underwear when he's done having fun. Sterling's never been told no, and he's not about to put his ego aside and play by my rules. But I never thought he'd fight so dirty.

The Forty Rules of Love Elif Shafak 2010-02-18 In this lyrical, exuberant tale, acclaimed Turkish author Elif Shafak, author of *The Island of Missing Trees* (a Reese's Book Club Pick), incarnates Rumi's timeless message of love. *The Forty Rules of Love* unfolds two tantalizing parallel narratives—one contemporary and the other set in the thirteenth century, when Rumi encountered his spiritual mentor, the whirling dervish known as Shams of Tabriz—that together explore the enduring power of Rumi's work. Ella Rubenstein is forty years old and unhappily married when she takes a job as a reader for a literary agent. Her first assignment is to read and report on *Sweet Blasphemy*, a novel written by a man named Aziz Zahara. Ella is mesmerized by his tale of Shams's search for Rumi and the dervish's role in transforming the successful but unhappy cleric into a committed mystic, passionate poet, and advocate of love. She is also taken with Shams's lessons, or rules, that offer insight into an ancient philosophy based on the unity of all people and religions, and the presence of love in each and every one of us. As she reads on, she realizes that Rumi's story mirrors her own and that Zahara—like Shams—has come to set her free.

Postmodernism, Or, The Cultural Logic of Late Capitalism Fredric Jameson 1991 Proceedings of a symposium, held as a satellite meeting of the Second World Congress of Neuroscience, at the University of Bremen in August 1987. An overview of lesion-induced neural plasticity in such areas as the spinal cord; vestibular, oculomotor, visual, and olfactory systems; the cerebellum; and the cerebral cortex. Many diagrams, charts, and illustrations. Some implications for the general understanding of neural plasticity are discussed. The title essay was published in 1984 in *New Left Review*, and a number of the other essays presented here also appeared in previous publications, sometimes in an earlier form. Jameson (comparative literature, Duke.) evaluates the concept of postmodernism and surveys developments in a wide range of fields—market ideology, architecture, painting, installment art, film, video art, literature. Ad Nauseam Carrie McLaren 2009-06-23 With the style and irreverence of

Vice magazine and the critique of the corporatocracy that made Naomi Klein's *No Logo* a global hit, the cult magazine *Stay Free!*—long considered the *Adbusters* of the United States—is finally offering a compendium of new and previously published material on the impact of consumer culture on our lives. The book questions, in the broadest sense, what happens to human beings when their brains are constantly assaulted by advertising and corporate messages. Most people assert that advertising is easily ignored and doesn't have any effect on them or their decision making, but *Ad Nauseam* shows that consumer pop culture does take its toll. In an engaging, accessible, and graphically appealing style, Carrie McLaren and Jason Torchinsky (as well as contributors such as David Cross, *The Onion*'s Joe Garden, *The New York Times*'s Julie Scelfo, and others) discuss everything from why the TV program *CSI* affects jury selection, to the methods by which market researchers stalk shoppers, to how advertising strategy is like dog training. The result is an entertaining and eye-opening account of the many ways consumer culture continues to pervade and transform American life.

The Unexpected Consequences of Iron Overload James Minter 2012-10-12 Jimmy Kavanagh has a genetic condition where he absorbs and stores iron from his diet over and above the body's requirements (Haemochromatosis). He is unaware of this. As time progresses, with increased ferritin levels he exhibits many traits of storing iron: oxidation (rusting), becoming magnetised, and having strong bones (excess iron is stored in bone marrow). Through various childhood experiences he realises he is different but doesn't know why. First Class to New York A. J. Harmon 2012-12-06 A year after losing her husband, her high school sweetheart and the love of her life to cancer,

Janie Anderson embarks on a once-in-a-lifetime trip to New York City. Trying to escape the oppressive loss and hopelessness of a life without him, Janie sets off on the adventure she has dreamed about since she was a little girl. Exploring the Big Apple, New York City, she secretly hopes that this landmark event will free her from her grief and unlock a future as wonderful as the life she had lost with Robert's passing. After a series of embarrassing encounters with a man in a dark grey suit during the flight, Janie wonders if this trip might be more than she bargained for. At 42, she is much too young to spend the rest of her days as a lonely widow, but is resolved to the fact that, like lightning, a love like that of her first marriage rarely strikes twice. When she accepts his invitation to dinner that evening, Janie is terrified at the realization that she's actually attracted to him. The handsome and wealthy Matt Lathem is sexy as hell, but, as Janie comes to realize, has baggage of his own. Can they help to heal each other in time to realize that a second chance at love is within their grasp? 'First Class to New York' is a contemporary, adult romance novel, written by AJ Harmon. It is the first book in the 'First Class' series, with Janie's story concluding in 'First Class to Portland.'
