earth. A bar magnet can attract an iron nail from a distance. This shows that external agencies (e.g. gravitational and magnetic forces) can exert force on a body even from a distance. In short, a force is required to put a stationary body in motion or stop a moving body, and some external agency is needed to provide this force.

distant) aims of the CCR standards into age- and attainment-appropriate terms. The Standards set requirements not only for English language arts (ELA) but also for literacy in history/social studies, science, and technical subjects. Just as students must learn to read, write, speak, listen,

and use language

Utilitarianism

CHAPTER I Introduction: The Character of the Theory Utilitarianism is not, strictly speaking, a problem of philosophy, but it is a problematic approach to moral philosophy which has always attracted both ardent defenders and ardent opponents. Seen by its enthusiasts as a down-to-earth and liberating theory which enjoins an empirical attitude
