*Geometry, Grades 6 - 8*

2014-12-01 Skill Builders  
are great tools for keeping  
children current during the  
school year or preparing  
them for the next grade  
level. A variety of fun and  
challenging activities  
provides students with  
practice and helps  
introduce basic skills to new  
learners. This full-color  
workbook contains  
appropriate passages and  
exercises based on national  
standards for sixth through  
eighth grade to help ensure  
that children master  
geometry math skills before  
progressing. Skill Builders  
combines entertaining and  
interactive activities with  
eye-catching graphics to

make learning and  
reviewing fun and effective.  
The compact 6" x 9" size  
makes this book perfect for  
school, at home, or on the  
go. It features 80  
perforated, reproducible  
pages and an answer key.

**MCP Mathematics** Dale Seymour PUBLICATIONS  
2004-07 MCP Mathematics promotes mathematical success for all students, especially those who struggle with their core math program. This trusted, targeted program uses a traditional drill and practice format with a predictable, easy-to-use lesson format. MCP Math is flexible and adaptable to fit a variety of intervention settings including after school, summer school, and additional math instruction during the regular school day. By teaching with MCP Math, you can: Provide targeted intervention through a complete alternative program to core math textbooks. Help

students learn and retain new concepts and skills with extensive practice.

Prepare students at a wide range of ability levels for success on standardized tests of math proficiency.

**Word Problems Grade 2**

Teacher Created Resources, Inc 2002-02-01 Teach basic math skills like negative numbers, percentages, and decimals using word problems! Your students' reading skills will be strengthened as they learn basic math operations and critical thinking skills. The word problems included in this book are interesting enough to hold student attention, yet challenging enough to strengthen math skills. This book is designed to be completed by the student with little or no help from a parent or teacher which makes it a great resource for use at home or school.

*STEM Missions* Kumon Publishing North America

students a fun way to practice interdisciplinary topics by combining science, technology, engineering, and math questions in order to strengthen problem-solving skills. In this workbook, your child will complete several STEM "missions" designed to increase his or her critical thinking and problem-solving abilities. Each mission asks your child to read science passages, answer questions about the passages, solve math problems, and use the knowledge gained to create or design a solution

(engineering) to a real world problem. Featuring Life Science, Earth Science, and Physical Science topics, these workbooks are sure to get your child interested in the connection between what he or she learns and how it can be applied to the real world.

Kumon, Multiplication

2008-01-01 Promotes beginning multiplication skills by introducing specific concepts gradually to enable complete mastery and the memorization of multiplication basics, sharing an abundance of practice pages for extra reinforcement. Original.
