Cancer Can Be Cured! Father Romano Zago Ofm 2008-11-01 Father Romano Zago, a Franciscan Friar and scholar, wrote the book *Cancer Can Be Cured* to reveal to the world an all natural Brazilian Recipe that contains the juice made from the whole leaf plant of *Aloe Arborescens* and honey that has been shown to rapidly restore the body's health so it heals itself of all types of cancer. The book tells how it was while administering to the poor in the shantytown of Rio Grande do Sul, Brazil that he and the provincial Father Arno Reckziegel, witnessed the healing of simple people of cancer who used this recipe. Later, when he had assignments in Israel and Italy where this aloe species grows naturally he continued to see great success in the chronically ill being cured when he recommended they use this recipe. This inspired for him to spend the next 20 years in researching the science behind this aloe species and the publication of that research in this book along with his numerous first hand anecdotes of cancer healing by those using the Brazilian juice recipe. Chapters include information on how to prepare the recipe using the three ingredients of whole leaf *Aloe arborescens* juice, honey and a small amount of distillate (1%); how to take the preparation; questions and answers on everything from how to pick the aloe leaves, why each of the three ingredients is important in the recipe, the types of cancer that have been cured using the recipe, other diseases and health problems the recipe has shown to be beneficial in helping the human body solve; the internationalization of the recipe on five continents; anecdotal stories of some body healings; the composition of *Aloe*; and *Aloe* and *Aids*. There has been much publicized scientific research and literature on the synergistic benefits of the 300 phytotherapeutic biochemical and nutrient constituents of *Aloe vera* to aid the body's defenses to enhance the immune system and protect against diseases. However, this is the first book to reveal the little known potency

Chinese Acupuncture Georges Soulié de Morant 1994 Soulie de Morant's masterpiece is the most detailed study of acupuncture available in a Western language. It was nominated for a Nobel prize and provided the foundation for French acupuncture. This text is divided into 5 parts: the energetics of acupuncture, the application of the energetics, physiology, meridians and points, and treatment. This book is a unique historical document, but more than this, it is the most practical of texts and has already served a generation of clinicians well.

Identikit cancro Paolo Buonarroti 2013-06-11 Questo testo descrive tutto ciò che è utile a comprendere i possibili motivi della nascita e delle recidive del cancro. Con visione naturopatica indica quali fattori

alimentari, chimici, farmacologici, fisiologici, e psicosomatici influiscono e in che modo, sulla deviazione genetica cellulare che porta alla nascita del cancro. Spiega i ruoli strategici ed i piani di azione dei rimedi naturali (alimenti, probiotici, vitamine, minerali, oligoelementi, integratori fitoterapici, oli essenziali, fiori di Bach, massaggi), e delle singole componenti dei più importanti protocolli naturali anticancro (Di Bella, Gerson, Clark, Hamer, Simoncini, Pantellini, Kousmine, Nacci, ecc...), e per quali tipologie di neoplasia sono risultati efficaci. Descrive nel dettaglio un protocollo di azioni strategiche antineoplastiche, ed una depurazione organica, messi a punto dall'autore, per drenare l'organismo dalle tossine, e ripristinare lo stato di salute, considerando anche lo specifico ambiente di lavoro frequentato. Insegna a riconoscere gli ingredienti cancerogeni nelle etichette dei prodotti, e quelli alternativi sani.

The Healing Power of Water Masaru Emoto 2008-09-01 This book will transform your world view. Dr. Masaru Emoto's first book, *The Hidden Message in Water*, told about his discovery that crystals formed in frozen water revealed changes when specific, concentrated thoughts were directed toward them. He also found that water from clear springs and water that has been exposed to loving words showed brilliant, complex and colourful snowflake patterns. In contrast, polluted water, or water exposed to negative thought formed incomplete, asymmetrical patterns with dull colors. *The Healing Power of Water* includes contributions from leading scientists such as William A. Tiller, who was featured in the film *What the Bleep Do We Know!?*; and from spiritual teachers such as Doreen Virtue, Starhawk, William Bloom, and Sig Lonegren.

Human Race Get Off Your Knees David Icke 2010 In a book that marks the author's 20th year of uncovering suppressed information, he takes the manipulation of the human race and the nature of reality to new levels of understanding and calls for humanity to rise from its knees and take back the world from the sinister network of families and non-human entities that covertly control us from cradle to grave. Homo stupidens Piero Calzona 2014-05-14 Siamo sicuri che *Homo sapiens*? Siamo sicuri che le religioni abbiano un'utilità per l'umanità? Per rispondere a queste due domande l'Autore ha dovuto dedicare tredici anni di ricerca serrata attraverso la lettura di circa cinquecento libri di varie discipline. L'antropologia, la paleontologia, l'etnologia, la biologia evolutiva, la microbiologia, la genetica e tante altre discipline relative all'evoluzionismo gli hanno dato le risposte che cercava. In questa ricerca storico-antropologica l'Autore apre nuovi scenari sulla natura dell'uomo e sulle origini della religione, scenari che evidenziano le catastrofi causate dall'uomo e che ci fanno presagire un futuro incerto per la specie *Homo*.

In Search of a Glorious Death Carlo Mazzantini 1992 This autobiographical narrative provides an alternative perspective of World War I, recounting the experiences of a Roman schoolboy who volunteered to fight against the Allies after Italy surrendered in 1943. But he is not sent to the front. Instead, with professional soldiers from the Russian front and fanatical fascists, he fights in the civil war that raged in Mussolini's puppet state. He is captured in Milan after the German surrender and is spared execution by his captors, boys of his own age.

Commentaries On Living 2 J Krishnamurti 2012-08-08 In this series of commentaries J. Krishnamurti, one of the great thinkers of our time, touches upon many human problems-our hopes, our fears, our illusions, our beliefs, our prejudices-and in the simplest language seems to pierce to their roots."The sheer simplicity is breathtaking. The reader is given, in one paragraph, often in one sentence, enough to keep him exploring, questioning, thinking for days." -Anne Morrow Lindbergh."The insight, spiritual and poetic, of these commentaries is as simply expressed as it is searching in its demand."-Times Literary Supplement (London)."Krishnamurti is no other than he seems, a free man, one of the first quality, growing older as diamonds do but the gem-like flame not

dating, and alive in these Commentaries. It is a treasure."-Francis Hackett, The New Republic.

L'onda capovolta Donato Merico 2017-05-09 Esiste un modo per salvare se stessi? Per l'autore certamente sì ma solo attraverso un percorso che richiede coraggio, umiltà e, soprattutto, forza per affrontare il dolore che scaturirà da questo viaggio a ritroso nel tempo: dal ricordo emozionale della vita intrauterina sino, attraverso il trauma del parto, ai primi mesi di vita dei bambini che si è stati. Il bambino che non è stato "ascoltato" nei suoi bisogni, poiché la madre e in seguito le altre figure di riferimento non hanno potuto, voluto o saputo farlo, ne ricava una profonda frustrazione, una ferita narcisistica che lo renderà un adulto incapace di "ascoltarsi" e di comprendere le proprie sensazioni, fino a provare una sorta di "distacco da se stesso" causa di varie forme di malessere fisico, psichico o relazionale, che lo porterà a cercare qualsiasi cosa "fuori da sé", come: il super lavoro, i doveri famigliari, gli svaghi fatui, la religione, la politica, le dipendenze di vario tipo, per tenere a bada l'"angoscia esistenziale".

Opening the Ark of the Covenant Frank Joseph 2007-01-26 Through his worldwide research into its disappearance, author Frank Joseph has learned that the Ark was not a mere legend; nor was it just an elaborate box used to store the original Ten Commandments. It was, he asserts, purpose-built to harness the powers of the Earth for humanity's continued physical existence and spiritual evolutions.

Medicine Upside Down Giorgio Mambretti 2013-03-01 Dr Hamer is a highly controversial figure: his patients love him, yet other doctors want to block him, and meanwhile he gathers acknowledgements, but at the same time he is put on trial as well. Many believe that most of the opposition against him is because his theories -- and above all his long list of patients who have been healed -- go completely against established medicine... How can it be that diseases like cancer can simply be an attempt of the brain to fix (which means to heal) some emotional traumas? And that identifying such traumas and solving them can equate to healing the body? This is the only book available in Italy which is really up-to-date and comprehensive, very clear and supported by some brilliant cartoons: all these qualities have turned it into a real best seller. At long last a book on Dr Hamer's new Germanic Medicine that is both really easy-to-read and comprehensive. Approach these controversial, yet fascinating theories with objectivity and open-mindedness.

Illustrated Clinical Anatomy Peter H. Abrahams 2011-06-24 Joint winner - Richard Asher Prize for the best new medical textbook, RSM/Society of Authors Book Awards 2005 Highly commended in the 2005 BMA Medical Book Awards: Basic and Clinical Sciences category "A wonderful book, very appropriate, written with extremely good, didactic and smart illustrations! Clinical anatomy at its best!" - Dr Ludmilla Stane, Institute for Anatomy, Dusseldorf. The publication of this new textbook in 2005 represented a major advance in the integration of anatomy teaching with the study of clinical medicine. This new edition builds on this well-received approach, bringing the content entirely up to date with increased emphasis on the conditions most commonly encountered by medical students and junior clinicians in training. Structured by body region, each chapter includes plentiful clinical photographs and images supplementing the high-quality anatomical diagrams, using the best modality to demonstrate anatomical relevance. Highlighted descriptions of clinical relevance emphasise the integrated approach so central to current teaching practice, and facilitated by the wealth of both clinical and anatomical experience of the distinguished author team.

The Basic Code of the Universe Massimo Citro 2011-07-26 Explains the universal information code connecting every person, plant, animal, and mineral and its applications in science, health care, and cosmic unity

- Examines research on consciousness, quantum physics, animal and plant intelligence, emotional fields, Kirlian photography, and the effects of thoughts, emotions, and music on water
- Reveals the connections between the work of Ervin Laszlo on the Akashic field, Rupert Sheldrake on morphogenetic fields, Richard Gerber on vibrational medicine, and Masaru Emoto on the memory of water

DNA dictates the physical features of an organism. But what dictates how something grows--from the division of cells in a human being to the fractal patterns of a crystal? Massimo Citro reveals that behind the complex world of Nature lies a basic code, a universal information field--also known as the Akashic field, which records all that was, is, and will be--that directs not only physical development and behavior but also energetic communication and interactions among all living and non-living things. The author examines research on consciousness, quantum physics, animal and plant intelligence, the power of intention, emotional fields, Kirlian photography, and the effects of thoughts, emotions, and music on water. Linking the work of Ervin Laszlo on the Akashic field, Rupert Sheldrake on morphogenetic fields, Richard Gerber on vibrational medicine, and Masaru Emoto on the memory of water, Citro shows how the universal information field connects every person, plant, animal, and mineral--a concept long known by shamans and expounded by perennial wisdom. Putting this science of the invisible to practical use, he explains his revolutionary system of vibrational medicine, known as TFF, which uses the information field to obtain the benefits of natural substances and medications in their "pure" informational form, offering side-effect-free remedies for health and well-being.

Ciao! Come Stai? Giovanni Lollo 2008-07-14 Ciao, se ti fossi appena svegliato da un lunghissimo letargo e aprissi gli occhi, guardandoti allo specchio, quale sarebbe la prima domanda che ti porresti? Ti assicuro che non sarebbe: Chi è quello nello specchio? Questa sarebbe la seconda. La prima domanda che ti faresti ancora prima di guardarti nello specchio, ancora prima di formulare un pensiero sensato, sarebbe: Come sto? E' la domanda più importante che potremo mai rivolgere a noi stessi. E' la domanda che ci facciamo appena ci rendiamo conto di essere vivi. L'abbiamo espressa a noi stessi alla nascita, quando ci hanno tagliato il cordone ombelicale e la risposta che abbiamo dato allora ha determinato la vita che abbiamo vissuto finora. Ora sei di fronte ad una importante scelta, puoi rifarti la domanda con una consapevolezza nuova. Ora puoi decidere liberamente, consapevole di quanto importante sia la domanda. Ciao! Come stai?

2012-2021 - The Dawn of the Sixth Sun Sergio Magana "Ocelocoyotl" 2012-09-01 What happens on and after December 21, 2012? There has been much confusion and many predictions based on the Mayan calendar. Some people think time on Earth will end, but what if there was an intact and complete resource from the ancestors that will give us the wisdom we need for the shift and an understanding of the coming era? In "2012-2021: The Dawn of the Sixth Sun," Sergio Magana (Ocelocoyotl), mystic and teacher of the ancient Toltec/Aztec lineage of Mesoamerica, discloses an in-depth understanding from a rich and uninterrupted oral tradition, the meaning of the shift from the Fifth to the Sixth Sun, the possibilities presented to humanity at this time, and ancient teachings and practices designed to support this shift. The Toltecs knew how to interpret the mathematical or universal order that governs all of existence by measuring and observing cycles of time, and the impact they had on the Earth, human consciousness, and perception.

The 5 Biological Laws Andrea Taddei 2013-09-02 The 5 Biological Laws discovered by Dr. Hamer, they represent a new key of reading and understanding of all the defined processes called pathological. This book, in particular, deals in a very in-depth way the conflicts regarding the inherent conflicts of devaluation of the bones, the muscles and the articulations. A somatic map of reference, with which it is possible to go back in a precise and verifiable way to the bony and muscular pains, is illustrated. Furthermore, they are explained from the point of view of the 5 Biological Laws, most common and diffuse pathologies regarding the osteo-muscular system like: the arthritis, the arthrosis, the osteoporosis, the scoliosis, the herniated disc, the fibromyalgia, the rheumatoid arthritis and the valgus big toe. The book is composed by 2 sections: a first one, from the first to the tenth chapter, illustrates and explains the 5 biological laws, their meaning and what they involve; while from the eleventh to fifteenth chapter the conflicts, concerning the tissues resulted from the

mesoderm, bones, muscles and articulations, are dealt. The book does not want to supply only a "prescription pad" of the map of the muscular, bony and articular pains, but it wants to make the reader understand the reason why, how, when and for how long the pains of the muscle-skeletal apparatus last in relation to the personal background.
