We briefly describe the core of the position-based dynamics algorithm and refer to the survey paper by Bender et al. [2014b] for further detail. PBD can be thought of as a semi-implicit integration step using the Stomer-Verlet method, followed by a number of constraint projection steps. The projection step is performed using local

Image Dehazing Transformer With Transmission-Aware 3D ...

To solve this issue, we propose a new position embedding method for image dehazing, transmission-aware 3D position embedding, that embeds the haze density-related prior information (e.g., transmission map) into the position encoder. Such a manner suggests the haze densities of different spatial regions. We expect the regions with similar
